

The Edge LED Edge Lighting

Create magical effect with "The Edge" by L.E.D. Utilizing our led circuit boards lighting the edge of art-glass, etched glass, or silk screened acrylic, you can create a piece of art, advertise logos, or create a color changing window or divider. The possibilities are limitless, when you combine light and glass. Utilizing state of the art leds, with spacing ranging from .25"-1" O/C, you can choose a variety of colors or change colors with your mood and the switch of a button.
